BITHGROUP Technologies is a Baltimore-based, award-winning, IT solutions and technology company. For over three decades, our team of innovators has built an impressive track record in leading our clients in finding new and creative ways to solve their complex, and often unpredictable, business problems, utilizing new and emerging technologies. As the needs of our clients have evolved, so have the company's skills and areas of expertise. We serve a diverse set of clients in the local, state, and federal government sectors, as well as the educational and healthcare verticals. Our solution portfolio is organized into the following service groups: Enterprise IT, Healthcare IT, Education IT, Energy Data Analytics, and Identity Services Group. Each service group operates as an entrepreneurial engine within the company, benefiting from the support and collective resources of the overall corporate team. Our leadership has developed long-term strategic relationships with various hardware and special applications groups, which serve to further undergird our solution support delivery systems across all industry and technology verticals.
